Moved:  Cr Ron Campbell  Seconded:  Cr Ann Loder

That at 5.16pm Council move into Closed (Public Excluded) Meeting of Council and that the press and members of the public be asked to leave the room whilst Council considers the following items:

13.1  Nurruby Child Care Centre - Purchase of 72-74 Gibbons Street, Narrabri

This matter is considered to be confidential under Section 10A(2) - (c) and (d)(i) of the Local Government Act, and the Council is satisfied that discussion of this matter in an open meeting would, on balance, be contrary to the public interest as it deals with information that would, if disclosed, confer a commercial advantage on a person with whom the Council is conducting (or proposes to conduct) business and commercial information of a confidential nature that would, if disclosed prejudice the commercial position of the person who supplied it.

13.2  Vickery Coal Mine Extension Project - Voluntary Planning Agreement

This matter is considered to be confidential under Section 10A(2) - (c) and (d)(i) of the Local Government Act, and the Council is satisfied that discussion of this matter in an open meeting would, on balance, be contrary to the public interest as it deals with information that would, if disclosed, confer a commercial advantage on a person with whom the Council is conducting (or proposes to conduct) business and commercial information of a confidential nature that would, if disclosed prejudice the commercial position of the person who supplied it.

13.3  Mayoral Minute - Request to renew Contract

This matter is considered to be confidential under Section 10A(2) - (a) of the Local Government Act, and the Council is satisfied that discussion of this matter in an open meeting would, on balance, be contrary to the public interest as it deals with personnel matters concerning particular individuals (other than councillors).

9.4 NORTHERN INLAND ACADEMY OF SPORT ASSOCIATE PARTNERSHIP PROPOSAL 2019 - REQUEST FOR COUNCIL SUPPORT

File Number: 443982
Responsible Officer: Stewart Todd, General Manager
Author: Bill Birch, Economic Development Manager
Attachments: Nil

DELIVERY PROGRAM ALIGNMENT

1. Society

Objective 1.1 Community health, safety and support services will adequately meet changing community needs
Strategy 1.1.1 Support and encourage health and wellbeing programs and services to improve resident lifestyles

EXECUTIVE SUMMARY

This report reviews a Partnership Proposal submitted to Council from the Northern Inland Academy of Sport ("NIAS"). The proposal outlines a request for a monetary contribution from Council in the amount of $2,000.00 plus GST, which will result in Council advertising being placed across a range of media in conjunction with NIAS advertising and reports, along with complimentary event tickets (four (4) per year).

RECOMMENDATION

That Council review the proposal supplied by Northern Inland Academy of Sport (NIAS) and the availability of Council funding in the amount of $2,000.00 plus GST and determine a course of action.

BACKGROUND

A partnership request which has been made by Northern Inland Academy of Sport ("NIAS") will cost $2,000.00 plus GST. The return on this investment is a variety of advertising opportunities for Council across a range of media. Council has a Community Grants Fund that may be utilised to allocate funds for partnership purposes.

CURRENT SITUATION

Research shows that the Northern Inland Academy of Sport ("NIAS") is an incorporated, community based entity established in 1992. The aim of NIAS is to identify and prepare talented sportspeople in the Northern Inland region assisting them to reach maximum potential both on and off the field.

NIAS provides opportunities for accessing skill development, athlete and coach support services. The aim of NIAS is to develop individual potential, and support those identified as talented sportspeople in making the transition to higher levels of competition and performance. Through their programmes, NIAS has/will offer the following:
ORDINARY COUNCIL MEETING AGENDA

26 MARCH 2019

Item 9.4

- Provision of 4,200 scholarships to athletes since 1992.
- Provision of 400 scholarships to coaches since 1992.
- Skill development across eleven sports programmes.
- Sport science testing analysis and support services at a regional and individual level.
- Life skills education program.
- Annual sporting events.

The NIAS organisation has developed a partnership proposal which affords Council the opportunity, at a cost of $2,000.00 plus GST, to be promoted as a NIAS Partner. This results in the following benefits for Council:

- Council name and logo in the monthly NIAS newsletter.
- Opportunity to advertise in the newsletter free of charge.
- Council name and logo in the NIAS Annual Report of which 300 copies are distributed yearly.
- Opportunity to advertise in the Annual Report free of charge.
- Prominent Logo recognition in the fortnightly NIAS Report printed as a full page in the Northern Daily Leader (readership 36,000).
- Council will be known as an Associate Partner of the Academy.
- Council signs can be used at NIAS events.
- Council logo on NIAS website with Council overview on partner page.
- Link from NIAS website to Council website.
- Opportunity for Council advertising on NIAS home page with direct link to Council website.
- Community Engagement – Association with an organisation focussed on personal growth and development of young athletes.
- Invitation to exclusive annual sponsor/partner events – two (2) complimentary tickets per function.
- Invitation to annual Academy Awards – two (2) complimentary tickets.
FINANCIAL IMPLICATIONS

In order to participate in the proposed partnership in the current financial year, Council could allocate funds from the 2018/2019 Community Grants Fund. At present the Community Grants Fund allocations are as follows:

<table>
<thead>
<tr>
<th>Expense</th>
<th>Amount</th>

| Total Expenditure                            | $61,982.81 |
| Balance After Expenditure                    | $3,017.19  |

As can be seen there is a balance amount within the Community Grants Fund of approximately $3,017.19 which would allow the proposed funding of $2,000.00 plus GST to be allocated to this account.

DELIVERY PROGRAM ALIGNMENT

1. Society
Objective  1.2 Our vibrant country lifestyle will be enhanced through embracing our recreational and cultural diversity
Strategy  1.2.2 Promote and support the development of and access to creative arts

EXECUTIVE SUMMARY

Council received a letter of request on 13 March 2019, from Mr Richard Barry. The letter of request outlines research, development and production of a book relating to the Centenary of the Great War, costs related to book production, as well as a request for financial support from Council.

Mr Barry advises that the cost of producing a limited number of bound hard copies in colour is $5,000.00 with a request for consideration of funding to assist with the project. There is an offer of public acknowledgement of Council’s contribution, should Council resolution to do so.

RECOMMENDATION

That Council review the request from Mr Barry and availability of Council funding, being $1,000, and determine a course of action.

BACKGROUND

A request for financial assistance has been received from Mr. Richard Barry in relation to a book he has researched and developed which details short and long articles of over 650 local diggers and nurses. Mr Barry offers a public acknowledgement of Council’s contribution in return for this investment. Council has a Community Grants Fund that may be utilised to allocate funds.

CURRENT SITUATION

The 160 page book, researched and developed by Mr Barry, highlights the stories of over 650 diggers and nurses from the district who volunteered to fight, as well as the contribution of indigenous peoples and many facets of the Great War, including what happened when the diggers returned home. Over 300 photographs have been included. A production run of the book has already occurred with copies of the book have being donated to local schools and libraries, the Australian War Memorial, Canberra Parliamentary Library, the NSW Mitchell Library and the National Library. Funds have previously been received from other sources. The current request relates to production of a small number of limited print copies in colour and bound in hardcover.
FINANCIAL IMPLICATIONS

In order to contribute, Council could allocate funds from the 2018/19 Community Grants Fund

9.6 BELLATA WATER MAINS REPLACEMENT

File Number: 445009

Responsible Officer: Darren Raeck, Director Infrastructure Delivery

Author: Darren Raeck, Director Infrastructure Delivery

Attachments: 1. Bellata Water Quality Memorandum - Confidential (under separate cover)

DELIVERY PROGRAM ALIGNMENT

4. Leadership

Objective 4.4 Our strategic goals will be achieved through transparent and accountable planning and reporting

Strategy 4.4.4 Implement Strategic Asset Management Plans focusing on renewal of assets

EXECUTIVE SUMMARY

Council has an ongoing program of works to replace water supply infrastructure across the Shire. Recently a number of projects have been identified in Bellata that require Council to expedite pipeline replacement works due to planned developments by road and rail network managers. Replacement of the associated pipelines will improve chlorine residuals throughout Bellata, improve firefighting capability, reduce the future risk of failure under the railway line and Newell Highway and ultimately reduce the risk of digging up newly formed works.

The existing pipelines are very near to the end of their useful life (installed in 1956). Expediting the works will reduce the overall cost of construction and result in an overall improvement to the water supply levels of service in Bellata.

RECOMMENDATION

1. That Council approve and allocate $314,000 from the Water Fund for the replacement of the Bellata Rising main.

2. That Council approve and allocate $337,000 from the Water Fund for the replacement of the reticulated water main located within the Newell Highway pavement area.

BACKGROUND

In March 2018, Council commenced investigations into fluctuating chlorine levels in Bellata. A report was prepared by HunterH2O which identified a number of options for improving chlorine residual (for disinfection purposes) and firefighting capacity within the town.

In July 2018, RMS received funding for pavement upgrades along the Newell Highway which included channelised right hand turn treatments at some local roads intersecting with the highway. The proposed works would require replacement of the road surface through Bellata. Preliminary discussion identified that the existing Bellata water reticulation main (installed in 1956) within the Newell Highway pavement area should be replaced prior to the commencement of the works. The pipeline is located approximately 3 metres from existing edge of kerb.

In February 2019, Council also processed a Development Application from GrainCorp which proposed to build a new rail siding over the existing rising main west of the railway line in Bellata.
The construction of this siding identified the need to also replace the rising main taking into considerations the recommendations of the HunterH2O report.

**CURRENT SITUATION**

The Infrastructure Delivery Group has identified synergies in these works which will provide immediate water quality and fire flow benefits. Consolidating the works will also provide cost savings in construction due to being able to complete the replacement works prior to road and rail construction contractors beginning works.

Preliminary discussions with Roads and Maritime Services indicate that a full replacement of this main will be required. The Roads and Maritime Services have requested a price from Council to install these works under the footpath. Roads and Maritime Services have also requested a price to relocate the existing pipeline under the footpath on the eastern side of the Newell Highway. Any additional cost will be the responsibility of the Roads and Maritime Services.

Replacing the rising main requires a rail crossing, Newell Highway crossing and connection to the existing water tower in Gurley Street. Replacing the water main within the Newell Highway requires the installation of a number of isolation valves, fire plugs and services connections.

**FINANCIAL IMPLICATIONS**

The estimated cost to replace the rising main is $314,000. The estimated cost to replace the reticulation main currently located within the Newell Highway Road pavement $337,000 (price to place this under the footpath is yet to be received but will be the responsibility of the Roads and Maritime Services).

A total budget required to complete these works is $651,000. It is proposed that the works would be funded from the Water Restricted Asset Fund.

**STATUTORY AND POLICY IMPLICATIONS**

Compliance with Australian Rail Track Corporation and Roads and Maritime Road construction requirements.

**CONSULTATION**

**External Consultation**

Roads and Maritime Services have been made aware of the project. Council is yet to seek Australian Rail Track Corporation approval however this responsibility is expected to be transferred to the contractor.

Legal advice is being sought on the use of existing contracts to expedite the delivery of this work.

**Internal Consultation**

- Water Services Manager and Staff.
- Economic Development Staff.
THEME 2: OUR ENVIRONMENT

STRATEGIC DIRECTION 2: ENVIRONMENTALLY SUSTAINABLE AND PRODUCTIVE SHIRE

By 2027, we will maintain a healthy balance between our natural and built environments.

COMMUNITY ENGAGEMENT

Through extensive community engagement, the Narrabri Shire community identified several environmental priority areas to be actioned over the 2017 - 2018 financial year.

COMMUNITY SERVICES

Current services provided within the Narrabri Shire community include:

- Waste management and recycling
- Environmental planning
- Planning and development
- Parks and open spaces
- Noxious weeds control
- Floodplain management
- Water and sewer management
- Stormwater management

COMMUNITY OUTCOMES

In partnership with the community, government and non-government agencies, the Operational Plan will work towards achieving the following environmental strategic outcomes:

- Improved air, water and soil quality
- Reduction in domestic and industry waste
- Management of potential impacts from extractive industries
- Improved emergency service provision and resources
- Maintenance of heritage sites for future generation

2. Environment

Objective 2.1 We will maintain our open spaces, natural environment and heritage for future generations
Strategy 2.1.3 Passive recreational open spaces are well maintained and accessible for public use

EXECUTIVE SUMMARY

The Narrabri Australian Rules Football Club has requested the suspension of the Alcohol Free Area at Leitch Oval for the purposes of conducting a fundraiser/promotional event.

RECOMMENDATION

That Council suspend the Alcohol Free Area on Leitch Oval (No.3 Oval), between the hours of 12:00PM to 6:00PM Saturday 6 April 2019, for the purposes of conducting a fundraiser/promotional event for the Narrabri Australian Rules Football Club. The adjacent public road will remain an Alcohol Free Zone.

BACKGROUND

Council has received a ‘Request for Suspension of Alcohol Free Zones’ application from the Crossroads Hotel on 7 March 2019 requesting a temporary suspension of the Alcohol Free Area within Leitch Oval (No.3 Oval) Narrabri, for the purposes of conducting a fundraiser/promotional event for the Narrabri Australian Rules Football Club.

A copy of the submitted Request and Public Liability Certificate of Currency has been included as an attachment to this report.

CURRENT SITUATION

The suspension of the Alcohol Free Area has been requested from 12:00PM to 6:00PM Saturday 6 April 2019.

This is the second time this event has been held and is expected to attract between 200 to 300 people. Security will be provided by the Crossroads Hotel for the duration of the event. The purpose of the event is to help promote the Narrabri Australian Rules Football Club and raise funds for the club.

FINANCIAL IMPLICATIONS

ORDINARY COUNCIL MEETING AGENDA
26 MARCH 2019

Item 10.1 - Attachment 1
10.2 NOTICE OF MOTION - OLD CEMETERY MAINTENANCE

File Number: 443646
Attachments: Nil

I, Councillor Ron Campbell, give notice that at the next Ordinary Meeting of Council be held on 26 March 2019, I intend to move the following motion:

MOTION
That Council consider an increased budget allocation for maintenance at the Old Cemetery (Narrabri) in budget deliberations for the 2019/2020 financial year.

RATIONALE
There has been, for many years, issues around the maintenance of the Old Cemetery.

This is about respect for the deceased, for the living that visit and tend the graves of their relatives and friends, for those who will be buried there in the future and finally for community pride.

I commend this Notice of Motion to Council.
THEME 3: OUR ECONOMY

STRATEGIC DIRECTION 3: PROGRESSIVE AND DIVERSE ECONOMY

By 2027, we will have developed a strong, diverse economy that attracts, retains and inspires business, industry and tourism growth.

COMMUNITY ENGAGEMENT

Through extensive community engagement, the Narrabri Shire community identified several economic priority areas to be actioned over the 2017 - 2018 financial year.

COMMUNITY SERVICES

Current services provided within the Narrabri Shire community include:

- Economic development
- Planning and development
- Entertainment and conferences
- Local and regional tourism and events
- Saleyards
- Airport

COMMUNITY OUTCOMES

In partnership with the community, government and non-government agencies, the Operational Plan will work towards achieving the following economic strategic outcomes:

- Increased community events, conferences and entertainment
- Increased employment through industry innovation, investment and value adding
- Established freight hub for the Norther Inland Region
- Increased housing availability and affordability
- Broadened economic base
11.1 REPLACEMENT OF ROAD SURFACE MAITLAND STREET, NARRABRI

DELIVERY PROGRAM ALIGNMENT

3. Economy

Objective 3.1 We will stimulate business and tourism by maximising our assets and attracting regional events

Strategy 3.1.3 Implement the Narrabri CBD Master Plan to capture a greater proportion of highway traffic opportunities and improve shopping experience

EXECUTIVE SUMMARY

On 27 February 2018, Council endorsed the stabilisation and spray sealing of Maitland Street. It was also noted the need to upgrade the roundabouts, investigate and carry out any stormwater upgrade works prior to completion of the works. The resolution also stated that Council would do so with the intent of ensuring financial resources are available to complete the works with consideration for long term planning.

The unavailability of a specialist stormwater consultant caused the project to be delayed and ultimately deferred to avoid the 2018 Christmas shopping period.

The delay has given Council’s Infrastructure Delivery group another opportunity to look at the works. Opportunities to use specialist pipe laying techniques (directional boring) under the Narrabri Water Supply Augmentation Contract and the opportunity to gain efficiencies through the consolidation of a number of projects (CCTV) means economies of scale can be obtained and project delivery costs can be minimised. It is also expected that asphalt pricing will be more attractive now that a plant has been established in the region.

RECOMMENDATION

1. That Council approve and allocate a $200,000 budget for the replacement of stormwater pipes in Maitland Street, Narrabri.

2. That Council approve and allocate $554,000 for the replacement of water main in Maitland Street, Narrabri.

3. That Council approve and allocate $50,000 for the replacement and reconstruction of roundabouts in Maitland Street.

4. That Council approve and allocate $900,000 for the replacement of the existing road surface on Maitland Street between Lloyd Street and Bowen Street.

BACKGROUND

In February 2017, Council entered into contract to construct the main street lighting system and centre median. Extensive consultation was carried out regarding the options considered and implementation of the works program.
At the completion of the work Council endorsed the replacement of the existing road surface subject to a review and understanding of the associated stormwater requirements. Significant discussion was held at the time regarding the road surface type and the need to replace the existing water supply main along the western parking lane of Maitland Street, Narrabri.

Resurfacing of the existing road was scheduled for the Spring of 2018 however consultants were not available to complete the stormwater review until December 2018, resulting in delaying the works to avoid the Christmas shopping period.

A review of the current situation has been completed to identify any new opportunities. This paper has been prepared to allow Council to consider the current situation and new opportunities.

CURRENT SITUATION

The Narrabri central business district (“CBD”) improvements commenced in 2017. Since then Council has constructed the lighting system, centre median, tree planting and replaced street furniture; $1.7m has been spent on these works.

In January 2019, Council received $105,500 from the Community Safety Fund (combined with a Council co-contribute of $100,000) to complete CCTV works in the Narrabri CBD. These works are progressing well and will require conduits to be constructed in the road surface to enable to completion of the project. These works have now been incorporated into the overall planning of works in the Narrabri CBD.

The stormwater assessment has now been completed. The assessment identified a number of pipes crossing Maitland Street that should be upgraded prior to the replacement of the road surface. A total of $200,000 worth of stormwater upgrades is recommended before roundabouts and the road surface are replaced. This will avoid future excavation of the new surface. There is currently no stormwater budget allocation to complete this work however there is sufficient funds in the Stormwater Restricted Asset Fund to complete this work. A new budget would need to be voted in order to complete this work.

An upgrade of the Doyle Street and Dewhurst Street roundabouts is proposed as part of these works. A budget of $50,000 will be required to complete; drainage works, concreting, soil and planting. No capital works budget has been allocated for this work and a budget would need to be voted in order to complete this work.

The estimated cost to replace the CBD water main is $554,000 and would be funded from the Narrabri water mains replacement budget. The current budget remaining is $200,000 and would need to be increased to include this work. There is sufficient budget available in the Water Restricted Asset to complete this work.

Council has previously provided budget estimates for both bitumen seal and asphalting of Maitland Street, between Lloyd and Bowen Street. This was provided to the Ordinary Council Meeting of 27 February 2018. A revised estimate has now been completed in light of a new asphalt contractor providing a competitive market for the supply of asphalt to Narrabri. The estimated cost of this work for between Lloyd Street and Bowen Street is $900,000. This component of the project can be funded from the Road Restricted Asset fund.

FINANCIAL IMPLICATIONS

The works discussed would complete Councils infrastructure upgrades in the Narrabri CBD at cost of $2,000,000 including project management costs.

By replacing the water infrastructure early (before its anticipated useful life has been exhausted) there will be a cost of writing down the existing carrying value (depreciated value) of the assets concerned. This will impact the operating result directly by the value to be written off.

Council has the option of using the Roads Restricted Asset Fund to complete the Road Surface replacement.

### STATUTORY AND POLICY IMPLICATIONS

Where applicable the relevant Australian Standards will be applied to the construction works.

Objective 4.4 Our strategic goals will be achieved through transparent and accountable planning and reporting
Strategy 4.4.2 Ensure effective and sound local governance practice

EXECUTIVE SUMMARY

Council has received a request for leave of absence from Councillor McMahon for the period 6 March 2019 to 10 April 2019 inclusive. During this period, one (1) Ordinary Meeting(s) of Council is scheduled.

RECOMMENDATION

That Council grant leave of absence for Councillor McMahon for the period 6 March 2019 to 10 April 2019 inclusive, the period includes one (1) Ordinary Meeting(s) of Council.

BACKGROUND

A Leave of Absence is formal permission granted by way of Council resolution to a councillor excusing that councillor’s attendance at a particular meeting or official duties.

Leave of Absence is sought by way of application to the Council. A Leave of Absence is recognised in both the Local Government Act 1993 (“the Act”) and in the Local Government (General) Regulation 2005 (“Regulation”).

Whilst the practice of tendering an apology is recognised as a component of good meeting practice, it has no recognition in either the Act or the Regulation.

The acceptance of an apology is a positive acknowledgement of the courtesy of the person who tendered it. It does not amount to the granting of a Leave of Absence.

The tendering of an apology is an accepted convention by which those present at a meeting are notified that the person tendering the apology will not be attending the meeting. It is a form of courtesy to those attending the meeting. The purpose of an Apology is to aid the efficient conduct of meetings by informing the chairperson as to who will not be attending. This avoids delaying the opening of a meeting pending the arrival of such persons.

CURRENT SITUATION

Council has received a request for leave of absence from Councillor McMahon. The Councillor’s request conforms with clause 235A of Local Government (General) Regulation 2005.
Councillor McMahon has requested leave of absence for the period 6 March 2019 to 10 April 2019 inclusive. The reason for the Councillor’s request is that she will out of the Local Government area and will unfortunately be unable to attend to official Council duties.

During the requested leave of absence period there is one (1) Ordinary Meeting(s) of Council scheduled.

FINANCIAL IMPLICATIONS

Nil.

STATUTORY AND POLICY IMPLICATIONS

The Councillor’s request conforms with clause 235A of Local Government (General) Regulation 2005.

Objective

4.1 We will proactively engage and partner with the community and government to achieve our strategic goals

Strategy

4.1.3 Develop and build strong, productive partnerships with State and Federal Governments

EXECUTIVE SUMMARY

The 2019 National General Assembly ("NGA") of Local Government will be held at the National Convention Centre in Canberra on 16-19 June 2019. The NGA also provides an opportunity for Local Government to identify and discuss issues, which it believes, should be addressed by the new Federal Government. The Mayor has attended the NGA on a yearly basis since 2009.

Attendance to the NGA will cost approximately $2,600 (ex GST), including NGA registration, accommodation and travel costs.

RECOMMENDATION

1. That Council approve the Mayor to attend the National General Assembly in Canberra on 16-19 June 2019.

2. That Council consider putting any motion(s) to the National General Assembly in accordance with the Discussion Paper Criteria.

3. That Council authorise the Mayor to lodge motion(s) to the National General Assembly in accordance with the Discussion Paper Criteria.

BACKGROUND

The 2019 National General Assembly ("NGA") of Local Government will be held at the National Convention Centre in Canberra on 16-19 June 2019.

The NGA of Local Government is convened by the Australian Local Government Association ("ALGA") for local councils across Australia to develop and express a united voice on the core issues affecting Local Government and their communities. The NGA also provides an opportunity for Local Government to identify and discuss issues which it believes should be addressed by the new Federal Government.

The Mayor has attended the NGA on a yearly basis since 2009.

CURRENT SITUATION

This year’s discussions and debate at the Assembly will focus around the theme of “Future Focussed”, it is the 25th anniversary of the NGA, celebrating past achievements whilst firmly focused on the future. The theme for this year acknowledges that change is constant - and ALGA would like
councils to be positioned to ‘seize the opportunities and reap the rewards’ for their communities. Change is everywhere – be it digital transformation, community activism, ageing demographics, population policies, planning overlays, voice recognition, artificial intelligence and even self-driving cars are just around the corner. Layers of complexity are added by attitudes to climate change, energy generation, cost shifting and tax distributions. Not to mention increasing community expectations about the level and types of services and infrastructure provided by councils. It is up to each and every council to understand these developments, work through the challenges, and find the best way to shape their response to their communities. The NGA this year will consider what councils can do today to get ready for the challenges, opportunities and changes that pave the path ahead.

The Conference program will cover a range of issues and reflect on the diversity of Local Government and its interests.

FINANCIAL IMPLICATIONS

Conference early bird registration is $989 (inc GST); accommodation costs for the three (3) nights will approximately be $1,000 (inc GST), total $1,989 (inc GST) plus travel costs. It is estimated that flights costs will be approximately $600 return.

There is budget available to fund attendance to the NGA.

STATUTORY AND POLICY IMPLICATIONS

Reporting Requirements of the Payment of Expenses and Provision of Facilities to Councillors Policy

Councillors will report, in writing, in an open session of a Council Meeting on the outcome of the conference, seminar or similar function attended. The report will be submitted to the General Manager (or their delegate) within one (1) month of the Councillor’s attendance at the conference, seminar or similar function.

If a number of Councillors attend the same function, a single report may be submitted on behalf of all Councillors that attended, however the report must be signed by all Councillors that were in attendance.

The report to Council will be in writing and include the following:

- The purpose/subject matter of the conference, including the reason for the attendance of the delegate(s).
- The agenda of the conference.
- Any items of interest to Council discussed at the conference.
- Recommendations for further areas of action or investigation (if applicable).

A Councillor(s) who attend the annual conference of Local Government NSW (LGNSW) do not need to provide a written report to Council.

Dear Colleagues,

It is my pleasure to invite you to the 2019 National General Assembly of Local Government at the National Convention Centre in Canberra on 16 to 19 June.

This year we are Future Focused as we mark the NGA’s 25th anniversary, celebrating past achievements while firmly focused on the future.

Our theme this year acknowledges that change is constant, and we know you want your council to be positioned to seize the opportunities and reap the rewards for your communities.

Change is everywhere - be it digital transformation, community activism, aging demographics, population pressures, parking overways, voice recognition, artificial intelligence and even self-driving cars are just around the corner. Layers of complexity are added by attitudes to climate change, energy generation, cost shifting and tax distributions.

Not to mention increasing community expectations about the level and types of services and infrastructure provided by councils.

It is up to each and every council to understand these developments, work through the challenges, and find the best way to shape their response to their communities. The NGA this year will consider what councils can do today to get ready for the challenges, opportunities and changes that pave the path ahead.

As part of our exciting program, delegates can look forward to hearing from leading politicians, receiving deep insights from market-leading experts, being inspired by keynote speakers at the forefront of community engagement and community-powered communities, and concurrent sessions exploring housing affordability and density pressures, community health and waste. Together we will ignite thought-provoking discussions about what can be expected as we look to the future.

Previous NGA’s have provided participants with experiences, legislative information and an abundance of tools and techniques to take back and apply in their councils. This year will be no exception.

This year’s NGA will be also be held just after the next federal election. Before the dust settles, join us to make sure the incoming government is focused on the future of our sector, and the future prosperity and wellbeing of our communities, and when we come together, the power of our collective voices working to sustain vital funding and programs for local government cannot be denied - it is an unmissable opportunity for your council’s voice to be heard.

The NGA is the only event on the local government calendar that truly brings councils, staff and industry together nationwide to advocate, network, celebrate, learn and build strategic relationships that, collectively, will position participants at the forefront of local governance in Australia.

Are you Future Focused?

Mayor, David O’Leary
NGA President

Social Functions

Welcome Reception and Exhibition Opening
Sunday 10 June 2018
Venue: National Convention Centre
The Welcome Reception will be held in the exhibition hall and foyer.
05:00pm – 07:00pm
$50.00 per person for day delegates and guests. No charge for full registered delegates. No charge for registered accompanying partners.

Networking Dinner
Monday 17 June 2019
Venue: Australian War Memorial
The dinner is being held in the Anzac Hall.
07:00pm – 11:00pm
$110.00 per person.

Dress Code: Smart casual

This year we take the Networking Dinner to the Australian War Memorial, regarded as one of the most significant war memorials worldwide.

Dinner will be held in the Anzac Hall where you can see historical Military items such as famous Lancaster bomber G for George in the Striking By Night exhibit, a midget submarine created from sections of two full sized submarines in Sydney Under Attack, and world war aircraft in the Over The Front. The Great War In The Air exhibition.

You are welcome to browse these all your leisure whilst also having the opportunity to network with delegates from other councils and organisations.

Note: Numbers are limited and booking early is highly recommended.

General Assembly Dinner
Tuesday 19 June 2019
Venue: To be announced.
07:00pm – 11:00pm
$140.00 per person.

Dress Code: Lounge suit/collar & tie for men
Cocktail for women

Note: Bookings are accepted in order of receipt.

Partner Tours
Monday 17 June 2019
Lake Cruise to Monet
Enjoy the view from the recently re-established MV Southern Cross Yacht as you cruise around Lake Marley Griffin learning about some of Canberra’s monuments, programs and political landmarks.

After lunch, there will be an opportunity to view the Monet: Impression, Sunrise Exhibition at the National Gallery Australia. This exclusive exhibition will feature Monet pieces on loan from Paris and London along with work from artists like Van Gogh inspired by the impressionist master.

Tuesday 18 June 2019
Pottery and Wine Experience
Today we will be travelling just out of Canberra to nearby town of Murrumbateman. Here we will be visiting Higgens Pottery where we will be treated to a history of pottery demonstrations and a tour of the centre.

We will also be joined by local boutique winery, Gayle, wines who will provide tastings and the opportunity for you to ask any questions you have ever had in the process of wine making.

We will then begin making our way back to Canberra with a stop for lunch along the way.

Accommodation

Crowne Plaza

12.5 INLAND RAIL SUMMIT 2019

File Number: 445300
Responsible Officer: Stewart Todd, General Manager
Author: Delece Hartnett, Personal Assistant to GM & Mayor
Attachments: 1. Inland Rail Summit 2019 Brochure

DELIVERY PROGRAM ALIGNMENT

3. Economy

Objective 3.2 We will become a logistics hub for the northern inland region
Strategy 3.2.1 Promote Narrabri Shire as a Regional Logistics Hub

EXECUTIVE SUMMARY

The 2019 Inland Rail Summit is to be held in Sydney on 30 April – 1 May 2019. Councillor representation should be considered for this Summit. Many industry representatives and information will be provided during the Summit, which would be extremely beneficial to Council and its Industrial and Logistics Hub.

RECOMMENDATION

That Council determine Councillor attendance at the Inland Rail Summit 2019 to be held in Sydney on 30 April – 1 May 2019.

BACKGROUND

With Council’s Industrial & Logistics Hub and the Inland Rail Project the Inland Rail Summit 2019 could be seen as an industry specific conference that Council should be attending.

Key speakers, that are appearing at the Summit, that are associated with both Shire-wide projects, include ARTC, SCT Logistics, NSW Department of Transport and Department of Premier and Cabinet, to list a few.

CURRENT SITUATION

The conference format has two streams:
- Construction Planning, Procurement and Timelines; and
- Opportunities and Benefits for Supply Chains.

The theme of this year’s conference is “maximising commercial outcomes and overcoming complex construction and logistical delivery challenges on Australia’s major rail freight project”.

Industry conferences within this ‘unique’ space are not held regularly, and to pass-up attending may be an opportunity lost for Council.

FINANCIAL IMPLICATIONS

The conference only registration pricing is $3,399.00 (ex GST).
The conference + workshop registration is $4,649.00 (ex GST).
Accommodation costs for two (2) nights will be approximately $440 (in total) per person for the 2-day conference.

STATUTORY AND POLICY IMPLICATIONS

Reporting Requirements of the Payment of Expenses and Provision of Facilities to Councillors Policy

Councillors will report, in writing, in an open session of a Council Meeting on the outcome of the conference, seminar or similar function attended. The report will be submitted to the General Manager (or their delegate) within one (1) month of the Councillor’s attendance at the conference, seminar or similar function.

If a number of Councillors attend the same function, a single report may be submitted on behalf of all Councillors that attended, however the report must be signed by all Councillors that were in attendance.

The report to Council will be in writing and include the following:

- The purpose/subject matter of the conference, including the reason for the attendance of the delegate(s).
- The agenda of the conference.
- Any items of interest to Council discussed at the conference.
- Recommendations for further areas of action or investigation (if applicable).

A Councillor(s) who attend the annual conference of Local Government NSW (LGNSW) do not need to provide a written report to Council.

ORDINARY COUNCIL MEETING AGENDA 26 MARCH 2019

Item 12.5 - Attachment 1
ORDINARY COUNCIL MEETING AGENDA 26 MARCH 2019

WELCOME TO THE 2ND ANNUAL INLAND RAIL SUMMIT FOR 2019!

Dear Colleague,

Two-thirds of Australia’s export earnings come from our regional industries such as agriculture, tourism, retail services and manufacturing. As population grows and export opportunities increase, the fundamental success of moving local goods and commodities to domestic and international markets lies in Australia’s $10 billion Inland Rail Project.

While Australia’s rail system continues to play an important part of supply chain efficiency, congestion concerns and the doubling of current freight volumes by 2050 means the Inland Rail is an essential future-proofing strategy to keep Australia’s market highly competitive. In fact, even a 1% improvement in supply-chain efficiency can create a $2 billion growth in GDP.

With the first of the 13 projects underway in Parkes to Narromine, IQPC will host the 2nd Annual Inland Rail Summit 2019 in Sydney to address the plans and strategies to overcome complex construction and engineering project delivery and understanding the key benefits and opportunities for supply chain and logistics when operational.

In addition to executive updates and international case studies, the 2019 summit will address:

- **Freight Efficiency and Connectivity**: How to fully utilise the Inland Rail to improve freight services and intermodal connectivity for maximum ROI
- **Construction and Engineering Project Delivery**: Mitigating project risks and overcoming complex construction to deliver the project on-time and with minimal disruption
- **Stakeholder Engagement**: Successfully gaining community and investor buy-in for successful future operations

Don’t miss this opportunity to network with Australia’s Freight, Supply Chain and Inland Rail experts to discuss the transformation and construction of the nation’s once-in-a-generation transport infrastructure project.

I look forward to meeting you in Sydney in April!

Yours faithfully,

Katherine Fernandez
Conference Director
2nd Annual Inland Rail Summit 2019

NEW CASE STUDIES AND FOCUSED CHALLENGES FOR A TRULY TAILORED LEARNING EXPERIENCE

- **Future Proofing with Digital Systems and Asset Management**: Exploring research and developments on smart freight railroads and asset management standards for track resilience
- **Government, Regional Council and User Developments for Economic Growth**: Insights into the investment opportunities for regional business and growth for local and Indigenous employment
- **International Learnings on Freight Corridors**: Hear from change to Austria, India and the UK on how they are innovating with technology and construction methods to create a seamless rail freight network

WHO WILL YOU MEET?

- **Heads, Managers and Directors Responsible For:**
  - Inland Rail Program
  - Freight
  - Network Development
  - Intermodal
  - Economic Development
  - Rail Infrastructure
  - Rail & Freight Business Development

- **From the Following Industries:**
  - Federal
  - State and Local Government
  - Rail Freight Operators
  - Transport Authorities
  - Ports
  - Heavy Haul
  - Supply Chain
  - Manufacturing and Logistics
  - Construction and Engineering Consultants

Inland Rail Update

09:10 ARTC Executive Update: Lessons Learned from Parkes to Narramie to Move Projects from Feasibility to Construction

With P2N underway and N2NS expected to start construction in 2019, completion of the feasibility designs and EIS for the remaining brownfield and greenfield corridors between 2019 – 2021 are critical for Inland Rail’s timeline. This ARTC Executive Update will explore the priorities underway to ensure construction and operations of the Inland Rail remain on track, and the lessons already learned from the P2N section that can be applied for the remaining corridors.

Richard Wankmuller
Chief Executive Officer, Inland Rail, Australian Rail Track Corporation

International Keynote

09:50 HS2: More Than a Railway

HS2 is the most important economic regeneration project in Britain seen for decades. The new high speed railway will connect 8 out of 10 of the UK’s largest cities and economic hubs. It is the largest infrastructure project in Europe. It will increase opportunities for work and help grow the economy. Realising the transformative potential of HS2 requires planning and delivery across many disciplines – including skills.

Stream A: Construction Planning, Procurement and Timelines

Stream Chair: Dominic Luddy, Manager, Communication and Stakeholder Engagement, Aurecon

12:00 Geotechnical Challenges and Sustainable R&D Solutions in Track Design, Construction and Maintenance

There are significant engineering challenges in design, construction and maintenance when tracks are built on low-lying and coastal areas. With increasing numbers of rail projects are planned to be constructed in coming years (e.g. Inland Rail) which will involve 14,000 tonnes of steel and a rigorous process for efficient construction that will shed light on the remaining process. In preparation for this, rail owners should adopt innovative and effective methods to improve survivability and effectiveness, and reduce maintenance and construction costs of rail tracks. This session will address the importance of adopting

Stream B: Opportunities and Benefits for Supply Chains

Stream Chair: Neil Chambers, Director, Container Transport Alliance Australia

Case Study from the Port of Melbourne

Port of Melbourne will discuss their sustainable port freight rail solution that will compliment the Inland Rail and the benefits it will bring for supply chains. In this session, hear about the creation of the rail access strategy and the distribution from ports to metropolitan regions in order to identify the areas that will increase network capacity for logistics and supply chains.

Executive General Manager, Commercial, Port of Melbourne
sustainable solutions in track design, construction and maintenance of resilient tracks
catering for heavy freight trains in various ground conditions, including:
- An overview of typical Australian track problems across various passenger, freight and
  heavy haul to analyse track damages and develop resilience techniques to ensure long
  term protection of the corridors
- Preserving dedicated corridors which could link to the Inland Rail as a long term
  necessity to improve the efficiency of future supply chains
- The implications for Inland Rail and freight networks: Optimum heavy haul track design
  approaches (i.e. testing and computational modelling rigor) for improved track longevity
  and faster speeds
- State-of-the-art geotechnical laboratories at the CGRE including series of large-scales
  testing facilities for ballasted tracks, and iconic national facility for cyclic testing of high-
  speed rail (ARC-LIF) recently constructed at the Russell Vale

Communication and Engagement Strategy on Infrastructure Projects – How the Game is
Changing

Now more than ever customers and communities are playing an important role in how
infrastructure projects are being delivered. We now know the financial cost of ineffective
engagement which, in the billions, is too high to ignore. But over the past five years, we’ve
seen and continue to see rapid changes in the needs and expectations of communities and
stakeholders when it comes to projects that impact not only them, but the generations
to come. Using real project examples, we’ll take a look at the benefits of engaging early
and what it really means to develop an effective communication strategy that engages all
project stakeholders to achieve positive outcomes for your project.
- Traditional Engagement vs New Age methods (Why the change? Do we always have to do
  digital now? How do you know the right “mix” to use on your project?)
- Timing of Engagement – current and emerging trends (clients are bringing in
  stakeholder engagement earlier in the process than ever before; co-creation is on the
  rise – what does this mean?)
- Using this knowledge – how can we effectively develop and plan communication and
  management strategies for our project and external stakeholders?

NETWORKING LUNCH

Case Study: Capturing Freight from Road: How SCT Logistics Expands Business in
Regional Areas through Unique Rail Operations and New Terminal Facilities

SCT Logistics have proved to be one of Australia’s most efficient freight services through
the strategic development of their sites in Wodonga and Brisbane. With the launch of the
Melbourne – Wodonga – Brisbane rail services, SCT Logistics are also aligned with the
Inland Rail to expand regional business; connect with the East-West corridor and therefore,
significantly reduce costs and transit time for freight rail. This case study will explore SCT
Logistics’ strategic journey in developing intermodal estates, improving the supply chain
connectivity and aligning operations to the Inland Rail.
- Providing an additional source of rail volumes and changing the perception of rail as an
  alternative to road along the east coast
- Partnering with councils to promote and take advantage of unique supply chain
  networks and solutions
- Opportunities on a service level to accommodate double stacking and how it reduce
  operating costs

Andrew Williams
Chief Operating Officer,
SCT Logistics
14:20 Case Study: How VicRoads Assists with Technical Design of Bridge Structures to Accommodate Road and Rail Networks
In Victoria, the Inland Rail will potentially impact 30 bridges along VicRoads’ network. This includes the expectation of six new bridge replacements and 24 bridges with track lowering. As such, VicRoads is playing an important role as a stakeholder for this project, offering technical design solutions and assisting the ARTC in the planning stage to ensure the best outcome possible for both the bridges and road networks, and the safe construction and operability of the Inland Rail.
- Developing strong relationships and engagement with various internal and external stakeholders including legal, state government and the ARTC on the planning, project development and impact on VicRoads structures
- Design that matters in the planning phase: Assuming the role of SMEs to deliver advice and input on the proposed design and technical solutions, and ii) the safety and constructability of the infrastructure
- Taking into consideration bridge and road infrastructure and the impact it will have on bridge replacements and track lowering designs to accommodate rail infrastructure

Dr Hani Nahlawi
Senior Project Integration and Assurance Engineer, Relationship Manager - Inland Rail VicRoads

Panel Discussion: Future Customers – Analysing the Combination of Transport Routes and Modes to Increase Supply Chain Capacity
- Exploring the long term benefits of rail: What ways will the routes and intermodal capabilities benefit the volume and capacity of freight task to grow future operations?
- Moving beyond just transporting products: How the Inland Rail will allow users to assist their suppliers, regional markets and export business
- How users benefit from the early days of construction: Working with stakeholders to determine future strategies for terminal development, sites and changes to potential operations to prepare for when the project is ready

James Dixon
General Manager, Transportation and Aviation, Australia Post

Ian Ross
Chief Corporate Development Officer, DP World Australia

Greg Pauline
Director, Infrastructure and Property, Qube Holdings Limited

15:00 Case Study: Ventilation, Fire and Life Safety: System Requirements in Challenging Tunnel Designs for Diesel Freight Operations
- Having very limited precedence to follow the tunnel design has had to establish the ventilation, electrical and control system requirements to allow high power diesel locomotives with 1.8km double stacked freight through long tunnels at high grades while preventing overheating.
- Identifying the systems and equipment that accommodate a fire and life safety strategy that can reduce risks to drivers and passengers.
- Working closely with utility providers, operators and fire and emergency services to establish a plan for intervening during incident or emergency in tunnel the tunnel environment.

Chris Baker
Tunnel Systems Discipline Leader, Future Freight Joint Venture

CONFERENCE DAY ONE
Tuesday, 30 April 2019

15:40 AFTERNOON TEA AND NETWORKING BREAK

16:10 Enabling Moree Plains Shire Council and Surrounding Communities to be Inland Rail Infrastructure Ready
   • The role of local government councils to inform of challenging structural conditions to help ensure resilient structure for major infrastructure projects
   • Exploring how Moree Plains Shire Council is liaising with the ARTC to understand how to deliver information efficiently to their people and community
   • How local councils can help develop their staff and council workforce to develop the skills to assist with building the infrastructure

John Carleton
Executive Projects Manager,
Moree Plains Shire Council

CHAMPAGNE ROUNDTABLE DISCUSSIONS
This is your chance to make your conference experience truly interactive and collaborative. Grab a glass of wine, beer or soft drink and join your industry peers to discuss and work through pressing challenges around the topic of your choice. Each round will last 20 minutes, giving you the chance to rotate and discuss two topics.

Topic 1: Project Financing and Investment for Major Rail Infrastructure: What Can Australia Learn from International Trends?
Sudath Amaratunga
Technical Manager,
Transport for NSW

Topic 2: Understanding the Safety Responsibilities of Stakeholders in the Construction and Operation of the Inland Rail
Rebecca Pickering
Director, Engagement, Environment & Property, Inland Rail
Australian Rail Track Corporation

Topic 3: Creating a Freight Strategy to Promote Freight on Rail and Connectivity with Other Transport Modes

17:30 END OF DAY ONE AND NETWORKING DRINKS

WHAT DO OUR PAST DELEGATES SAY?

"The two day Summit was a great success as it provided the latest information about the status of the project, preparation of last mile connectivity to Ports of Melbourne, Botany and Brisbane. It also highlighted the challenges, including shifting trucks from east coast roads to the Inland Rail Corridor."

Adani Mines and Power

"I thought the ability to network was good with like minded people and that in general the content was good."

#### INTERNATIONAL LEARNINGS ON FREIGHT CORRIDORS

**09:10**
Transforming the Transportation of Goods through the Construction of the World-Class Eastern and Western Dedicated Freight Corridors in India

Under the Ministry of Railways, India, the Dedicated Freight Corridor Corporation (DFCC) was established to plan, develop, construct and maintain the operation of the country's freight corridors. The purpose of the project is to provide a safe and efficient freight transportation system and also drive the establishment of industrial corridors and logistic parks along its alignment. In this session, Ajit will discuss the construction of the 330km combined Eastern and Western freight corridors and establishing the need for improved freight transport in India.

- Reducing congestion at various terminals and junctions to provide efficient and fast movement along the corridor
- Exploring automatic signalling and traffic communications on the freight corridors and engaging with technical advisors to develop an effective strategy for implementation
- Increasing capacity, operations and speed to carry higher loads and allow shorter transit times of up to 50 per cent in some routes of the corridor

**Ajit Kumar Mishra**
Chief Project Manager, Dedicated Freight Corridor Corporation of India

### FUTURE PROOFING WITH DIGITAL SYSTEMS AND ASSET MANAGEMENT

**11:00**
Smart Freight and Railroads: Long Term Communications and Technology Developments to Ensure the Longevity of Freight Rail

In a recent study on Smart Rail, Stuart will discuss the next generation of rail technologies that can be integrated, supported and introduced in Australia’s major rail and freight rail projects, in particular telecommunications and smart systems. It will explore how it will enable smart asset management and maintenance and the applications for freight rail and supply chains to inform strategic future planning.

- Creating a long term strategic framework for digital and communication technologies that can be applied to freight rail construction and ensure longevity of all physical assets.
- Prioritising smart rail initiatives as a means to improve freight customer cost-effective services and on-time delivery
- How it can create a harmonised and integrated approach with other multimodal transport systems to enable seamless services and journeys

**Digital Innovation at ÖBB to Optimise Freight Operations and Supply Chain Connectivity**

Rail Cargo Group (RCG) is the freight division of ÖBB (Austrian Federal Railways). As leading rail logistics specialists from Europe to Asia, RCG covers nearly 52 million kilometres a year and runs over 518 000 trains a year. Together these two organizational units are delivering digital innovation projects together to implement future-oriented, punctual logistic solutions that will deliver sustainable and efficient supply chain connectivity. Such innovations include IoT, Data Science and Prediction and Optimisation by AI. In this case study, Gerald will focus on these digital innovations that prove to enhance freight operations, discussing:

- Insights into key projects and prototypes of digital innovation at ÖBB and what has worked to unlock real productivity for business development in freight rail.
- Identifying the right approaches, suppliers and consultants to deliver the best initiatives that match the capability of the organisation, while still putting the customers and users at the forefront.

12.6 NOTICE OF MOTION - NARRABRI WEST ROUNDBOUT

File Number: 444692
Attachments: Nil

I, Councillor Ron Campbell, give notice that at the next Ordinary Meeting of Council be held on 26 March 2019, I intend to move the following motion:

MOTION
That Council formally write to the Minister for Roads, Maritime and Freight, Member for Barwon and the Roads & Maritime Service about the following safety concerns of the roundabout at the intersection of the Newell Highway (Cooma Road), Old Turrawan Road and Mooloolbar Street:

1. The lead-in/lead-out of the roundabout.
2. The eastern side drainage towards the Narrabri West Public School and the associated waterway.
3. The management of a chemical/hazardous spill due to the proximity of the Narrabri West Public School.

RATIONALE
The issues are:

- Configuration of the roundabout with its ‘lead-in/lead-out’. The drainage towards the public school and the waterway on the Eastern side.
- My concerns are if a truck with toxic chemicals were to rollover on that roundabout (and there are many that go through there) that the chemicals would trail towards the public school and the waterway in its current configuration.

This is a major concern and has been for some time and a solution needs to be found.

I commend this Notice of Motion to Council.
13 CONFIDENTIAL (CLOSED COUNCIL) MEETING

RECOMMENDATION
That Council move into Closed (Public Excluded) Meeting of Council and that the press and members of the public be asked to leave the room whilst Council considers the following items:

13.1 Nurruby Child Care Centre - Purchase of 72-74 Gibbons Street, Narrabri
This matter is considered to be confidential under Section 10A(2) - (c) and (d)(i) of the Local Government Act, and the Council is satisfied that discussion of this matter in an open meeting would, on balance, be contrary to the public interest as it deals with information that would, if disclosed, confer a commercial advantage on a person with whom the Council is conducting (or proposes to conduct) business and commercial information of a confidential nature that would, if disclosed prejudice the commercial position of the person who supplied it.

RECOMMENDATION
That Council move out of Closed (Public Excluded) Meeting and that the resolutions from the Closed (Public Excluded) Meeting be read out aloud.

14 MEETING CLOSED
